About National Cart New Product Development Process

Applications:

- Order Picker Carts
- Pick-To-Tote
- Ladder Carts
- High Volume/Small Item Pick
- Large Item Carts
- Towable Carts
- Miscellaneous Carts

ABOUT US

National Cart Co. was founded in 1979. Four decades later, the company continues to grow and prosper as a family owned and operated business.

National Cart is a leader in the design, manufacturing, and distribution of material handling products, food service products, and store fixtures. Our main campus is located in St. Charles, Missouri and home to the corporate office. To better serve our west coast customers, a second manufacturing and distribution facility is located in Reno, Nevada. Total manufacturing and distribution space exceeds 400,000 sq. ft.

Our customer base ranges from single unit operations to Fortune 100 companies. We serve many industries including supermarket, mass retail, home center, food service, distribution, government, and industrial.

Our company motto of "Safer-Better-Faster" represents our commitment to customers, in the products we produce, as well as our associates' never-ending pursuit of excellence.

OUR CAPABILITIES

Our production facility is well suited for flexible, rapid product development. With the use of laser cutting, tube bending, turret punching, welding, and other "soft tool" fabrication techniques, we are able to manufacture first article samples for our customers in very short order. Transitions to production volumes are supported by in-house fixture design/build expertise, robotic weld stations, and multi-shift capacity. We use only top quality aluminum, stainless steel, and steel raw materials in our products.

NEW PRODUCT DEVELOPMENT

Developing new products is a part of the culture at NCC. Our New Product Development (NPD) process starts and ends with you, the customer. Through the NPD process, we take a single idea or "pain" and create solutions that provide the greatest ROI. The products that come out of the NPD process are user friendly, cost effective, and impactful to our customers.

Whether your objective is to move product within the distribution facility, from DC to RDC, or to improve the pick and put-away process, our team will work with you to modify an existing product or design a custom solution to meet your specific needs.

The best ideas come from our customers and we encourage new opportunities to continually improve our product offering. Please inquire with one of our customer service representatives or sales representatives to start the design process. Let our innovative engineers and design team show you how we can improve your current operation. We would love to hear from you.

ORDER PICKER CARTS

FEATURES

- Heavy-duty base made of fully welded steel frame with light weight aluminum deck
- Standard order picking cart weighs under 300lbs
- Bolt on cages, handles, wheels, accessories for easy replacement & cost savings
- Steel tubular undercarriage accepts forklifts and secures with steel stringer
- Reinforced steel tow socket, acts as a strike zone to prevent damage to aluminum deck when connecting with other carts for tow
- Wire grid is sturdy but lightweight to secure products within cart, while providing high visibility
- Durable powder coat finish

BENEFITS

- Enables multiple order picking with better organization
- Carts have been rated to be used with major forklift manufacturers
- Increased SKU capacity compared to pallets
- Increased safety of forklift truck operators and individuals on the ground
- Cage collects items that might have otherwise fallen off
- Decreased trip hazard from forklift to cart
- Carts can be easily unbranded for packaging and moved to staging area
- Carts can be moved individually or in train

Order picker carts increase capacity and speed during the pick and put-away process. When comparing to pick-to-pallet, order picker carts improve safety for the operator. NCC's versatile order picker cart can be adapted to use via man power or lift truck. Featuring heavy duty steel pockets that accept forklifts, as well as heavy duty wheels and casters for easy mobility during man powered movement or tugging applications.

PICK - TO - TOTE

While picking small items, apparel and multiple SKU orders, tote pick carts increase productivity and decrease errors. Purpose built e-commerce tote pick carts provide a superior way to pick, organize, and deliver your e-commerce orders. Ergonomic considerations reduce fatigue and allow associates to maintain steady work flow. As your facility expands, pick to tote carts allow associates to zone pick then place the tote onto a conveyor.

ECONOMICAL STEEL TOTE PICK CART

- Heavy duty steel construction
- (6) tote capacity
- Includes bag holder and miscellaneous materials holder
- Ergonomic handle provides associates ease of handling
- Weight: 14 lbs
- Order # 8000518
- 48" L x 27" W x 47" H

LOCK AND LOAD DOLLY

- Heavy duty steel construction
- Holds (1) & (2) stackable totes
- Lightweight collapsible handle
- Red & green brake pedal system
- Carts are stackable when not in use to reduce storage space
- Weight: 52 lbs
- Order # 8000749
- 37" L x 25" W x 40" H

NARROW AISLE TOTE PICK CART

- Heavy duty steel construction
- Standard (4) tote capacity
- Ergonomic handles and front storage bin
- Solid top for holding non tote items
- Weight: 88 lbs
- Order # 8000582
- 38" L x 19" W x 52" H
- 48" L x 27" W x 47" H

- Heavy duty steel construction
- Slanted shelves for increased visibility and product access
- Stop bar for tote retention
- Multiple shelf configurations available
- No rock, spring loaded center caster for maximum maneuverability
- Weight: 149 lbs
- Order # 8000633
- 67" L x 21" W x 57" H

**4-STEP
AUTOMATIC STAIR CART**

- Heavy duty steel construction
- Ergonomic (4) step design
- Ladder platform for increased ergonomics
- Extended handle provides stability and maneuverability
- No rock, spring loaded caster
- Weight: 195 lbs
- Order # 8000648
- 60" L x 27" W x 72" H

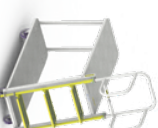

**ALUMINUM TOTE
LADDER CART WITH SHELVES**

- Aluminum, light weight design
- Steel ladder secures to the ground with durable rubber feet
- Extended hoop handle helps aid associates while operating
- Heavy duty, spring activated ladder
- Weight: 139 lbs
- Order # 801406
- 60" L x 20" W x 56" H

**ALUMINUM SLANT
SHELF LADDER CART**

- Aluminum, light weight design
- Slanted shelf for increased visibility and product access
- Heavy duty, spring activated, steel ladder
- Lips upon shelves for tote/product retention
- No rock, spring loaded caster
- Weight: 96 lbs
- Order # 801391
- 62" L x 20" W x 37" H

LADDER CART**

- Heavy duty steel construction
- Extended hoop handle helps aid associates while operating
- Powder coated steel deck
- Lips turned down on shelves
- Heavy duty, spring activated ladder
- Front swivel casters and rigid rear casters
- Weight: 96 lbs
- Order # 8000546
- 48" L x 20" W x 61" H

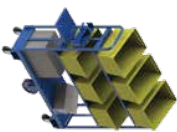

**ALUMINUM FLAT
SHELF LADDER CART**

- Aluminum, light weight design
- Extended hoop handle helps aid associates while operating
- Flat shelves with lips up
- Heavy duty, spring activated, steel ladder
- Optional, removable middle shelf
- No rock, spring loaded caster
- Weight: 102 lbs
- Order # 801393
- 60" L x 24" W x 60" H

HIGH VOLUME / SMALL ITEM PICK

High volume operations need a cart to meet both their peak and non peak demands. The correct picking cart enables associates to pick multiple orders, reduce touches and allows quicker pick times. High volume carts are designed around an organization's aisle width, tote or corrugate size, picking volume and SKU composition. A wide variety of accessories and designs are available to meet any needs.

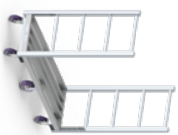

U-PICK (U-BOAT)

- Heavy duty steel construction
- Simple U-shape designed for economical packing
- Optional collapsible clipboard, scan gun holder and miscellaneous bin
- (6) - Wheel tilt design
- Weight: 172 lbs
- Order # 500001
- 63" L x 18" W x 67" H
- Call for more information

ALUMINUM HIGH VOLUME FLAT SHELF

- Aluminum, light weight design
- Two flat shelves with lips up
- Fold out ditty board
- (6) - Wheel tilt design
- Weight: 73 lbs
- Order # 804378
- 53" L x 18" W x 54" H

ALUMINUM U-BOAT WITH ADJUSTABLE SHELF

- Aluminum, light weight design
- Tube style deck
- Hold up to (4) Adjustable shelves
- Ergonomic vertical uprights for pushing
- (6) - Wheel tilt design
- Weight: 54 lbs
- Order # 804351
- 60" L x 20" W x 52" H

ALUMINUM STEEL SHELF PICK CART

- Aluminum, light weight design
- Slanted shelves
- Stop bar on shelves to hold corrugate/totes
- Optional retractable work shelf
- No rock, spring loaded caster
- Weight: 130 lbs
- Order # 804440
- 55" L x 23" W x 67" H

- Aluminum, light weight design
- I-Bar shelf design for max durability
- (3) and (4) shelf options
- Heavy duty wheels
- Weight: 55 lbs
- Order # 804355
- 59" L x 26" W x 68" H

ECONOMICAL STEEL HIGH VOLUME PICK CART

- Heavy duty steel construction
- Flat shelves
- Lips on shelves to retain product
- Economical design
- Weight: 145 lbs
- Order # 800297
- 50" L x 18" W x 65" H

ALUMINUM SLANT 4-SHELF CART

- Aluminum, light weight design
- I-Bar shelf design for max durability
- (3) and (4) shelf options
- Heavy duty wheels
- Weight: 81 lbs
- Order # 804374
- 59" L x 27" W x 69" H

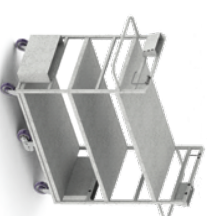

STANDARD ALUMINUM HIGH VOLUME PICK CART

- Aluminum, light weight design
- Push handles located on both ends
- Lips up to retain product
- Hook for step ladder
- (6) - Wheel tilt design
- Weight: 92 lbs
- Order # NS1476
- 60" L x 20" W x 45" H

SOLID ALUMINUM SLANT SHELF

- Aluminum, light weight design
- (2) solid angled shelves with lips up
- Ergonomic handle
- Optional trash bin
- (6) - Wheel tilt design
- Weight: 90 lbs
- Order # 804379
- 62" L x 26" W x 53" H

STEEL FLAT SHELF w/ ACCESSORIES

- Heavy duty steel construction
- Push handles on both ends
- Accessories and trash bin added
- (3) Flat shelves
- No rock, spring loaded caster
- Weight: 192 lbs
- Order # NS1490
- 73" L x 26" W x 52" H

ALUMINUM PICKING CART

- Aluminum, light weight design
- Durably, fully welded base verticals and top
- Optional, adjustable shelves
- T-bar base for holding heavy totes
- No rock, spring loaded caster
- Weight: 101 lbs
- Order # 804426
- 60" L x 24" W x 67" H

STOCK CART WITH SHELF

- Heavy duty steel construction
- Fold down shelf
- (2) Flat shelves
- Lips turned down shelves
- (4) wheel configuration
- Weight: 124 lbs
- Order # 8000492
- 46" L x 20" W x 77" H

TOWABLE CARTS

Towable picking and put away carts increase efficiency by decreasing material handling moves and improving transfer times. Carts towed by a motorized tugger and/or AGV allows workers to increase volume by pulling carts in a row. Additionally, towable carts reduce associate fatigue by eliminating the physical labor of moving multiple pallets.

PUT AWAY CART

- Heavy duty steel construction
- (3) shelf configuration with lips up
- Fully welded for max durability
- Towable with tugger or AGV
- Weight: 182 lbs
- Order # 8000732
- 50" L x 24" W x 50" H

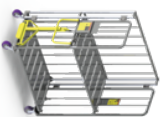

IN LINE FURNITURE CART

- Heavy duty steel construction
- Fork lift enabled for easy put away and picking
- Towable
- Removable and configurable product retention bars
- Large foot print to hold a wide range of SKUs
- Weight: 380 lbs
- Order # 8000341
- 182" L x 42" W x 57" H

ROLLTAINER

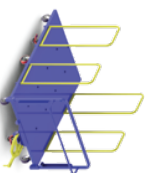

- Heavy duty steel construction
- Durable zinc plated finish
- Reduce damage to product while in transit
- Nestable folding design
- Heavy duty net reduces need for shrink wrap and slows away when not in use
- Multiple unit towing
- Weight: 152 lbs
- Order # 5000565
- 42" L x 24" W x 72" H

2 SHELF DISTRIBUTION CART

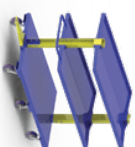

- Heavy duty steel construction
- Durable zinc plated finish
- Reduce damage to product while in transit
- Towable with tugger or AGV
- Nestable L design
- Weight: 191 lbs
- Order # 4800363
- 52" L x 28" W x 70" H

LARGE ITEM CARTS

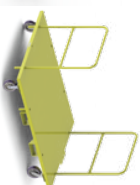

MATTRESS CART

- Heavy duty steel construction
- Configurable product retention/separation bars
- Towable with lift truck or tugger
- Optional brakes
