

Put Away Cart

BENEFITS

Put-Away carts allow associates to break down inbound pallets and quickly put merchandise into a multi-level pick zone. Carts can be transferred manually or with a fork lift and/or walkie rider. The optional retention net secures the load during transfer.

FEATURES

- Decreases the amount of time needed to stock shelves.
- Net contains items during the transfer.
- Can be moved manually, walkie-rider and/or fork lift.
- See-through, three-sided enclosures help items stay secure while increasing visibility.
